

GL 2123 GLOBAL PTF HD BASE

THE GLOBAL
TEXTILE CHEMICALS

The Hd Base from the Global Ptf series is an innovative high performance textile printing base engineered to create 3D puff effects with exceptional clarity and resistance. It's designed to deliver high-factile reliefs texture, this base imparts a soft puff touch while maintaining superior wash resistance, ensuring long-lasting visual & physical integrity of print.

This formulation allows intricate designs, fineness and sharp edges to rise with clarity and precision. From street wear to bring depth, drama & character to their textiles without the risk of cracking or distortion. The versatility across cottons, blends synthetics grants creative freedom for textiles.

It is user-friendly and compatible with standard textile printing practices. Suitable for both manual and automatic screen printing machines, it meets modern industry standards.

IDEAL FABRIC

100 % cotton or polyester blends

CURING

160°C for 3 minutes

STORAGE

In cool dry and properly closed (18°C to 32°C)

MESH

60-110 t/in

ADDITIVES

Not Applicable

PIGMENT LOADING

Ptf hd base inks should be used right from the container without any modification

CLEAN UP

Any eco friendly solvents for screen wash

SQUEEGEE & STENCIL

Water resistant emulsion
70-80 durometer, sharp
