

GLOBAL AKRY SOL FLUORESCENT COLOURS

THE GLOBAL
TEXTILE CHEMICALS

GLOBAL AKRY SOL FLUORESCENT COLOURS is a solvent-based ink from the GLOBAL AKRY SOL SERIES, designed specifically for high-performance textile screen printing. It is PVC and Phthalate free, making it environmentally responsible and safe for use in compliance with international standards. This ink is formulated for Tru-Tone process color printing, offering extremely accurate and consistent shades with very low dot gain. It provides a high-glow, bright finish, making it ideal for vibrant and eye-catching designs. With a soft hand feel, good elongation, and excellent wash resistance, it performs well on a variety of fabrics. The ink film remains flexible without stiffening the garment and ensures good opacity, even on dark fabrics. It is ready to use directly from the container and can be easily intermixed for custom shades. For application, print one layer, flash or pre-dry, and repeat as needed, then apply other colors over the base. Cure the printed fabric at 160°C for 3 minutes for optimal results. Store in a cool, dry place between 65°F - 95°F (18°C - 35°C), tightly sealed to avoid drying, humidity, or contamination. The shelf life is one year from the manufacturing date.

- GL 4226 GLOBAL AKRY SOL FL LEMON
- GL 4227 GLOBAL AKRY SOL FL ORANGE
- GL 4230 GLOBAL AKRY SOL FL RED
- GL 4231 GLOBAL AKRY SOL FL PINK
- GL 4232 GLOBAL AKRY SOL FL MAGENTA
- GL 4233 GLOBAL AKRY SOL FL VIOLET
- GL 4234 GLOBAL AKRY SOL FL BLUE
- GL 4235 GLOBAL AKRY SOL FL GREEN
- GL 4236 GLOBAL AKRY SOL FL GOLD

 **IDEAL FABRIC**
100 % cotton or polyester blends

 **STORAGE**
In cool dry and properly closed
(18°C to 32°C)

 **ADDITIVES**
If require add akrysol reducer

 **CLEAN UP**
Any eco-friendly solvents for
screen wash

 **CURING**
160°C for 3 minutes

 **MESH**
80-200 +/-in

 **APPLICATION**
Can use directly without
any modification

 **SQUEEGEE & STENCIL**
Solvent & Water resistant emulsion
60-75 Durometer, sharp edge
