

GLOBAL AKRY SOL STANDARD COLOURS

GLOBAL AKRY SOL STANDARD COLOURS is a solvent-based ink from the GLOBAL AKRY SOL SERIES, specifically developed for textile screen printing applications. This PVC and Phthalate free acrylic plastisol ink is designed for both manual and automatic wet-on-wet production. It delivers a bright, clean print with excellent color brilliance and a super soft finish. The ink is ready to use straight from the container and offers easy intermixing capabilities with high elongation properties and long shelf life. It forms a flexible ink film that doesn't stiffen the fabric, ensuring a smooth hand feel. With excellent opacity on dark garments and strong wash durability, it meets the demands of high-quality textile printing. For best results, apply one or two layers and cure at 160°C for 3 minutes. It should be stored at 65°F – 95°F (18°C – 35°C) in a cool, dry environment in tightly sealed containers to avoid drying, humidity, and contamination.

- GL 4216 GLOBAL AKRY SOL GREEN
- GL 4217 GLOBAL AKRY SOL BLACK
- GL 4218 GLOBAL AKRY SOL TURQUOISE BLUE

 **IDEAL FABRIC**
100 % cotton or polyester blends

 **STORAGE**
In cool dry and properly closed
(18°C to 32°C)

 **ADDITIVES**
3 % If need add akrysol reducer

 **CLEAN UP**
Any eco-friendly solvents for screen wash

 **CURING**
160°C for 3 minutes

 **MESH**
80-200 +/in

 **APPLICATION**
Can use directly without any modification

 **SQUEEGEE & STENCIL**
Water resistant emulsion
60 to 70 Durometer sharp edge
